

Spells of the Sea presents...

Make a Coral Reef!

The Mermaids live in a coral reef, can we
make our own?

What You'll Need:

1. Pipe cleaners
2. Play-Doh
3. Scissors (optional)

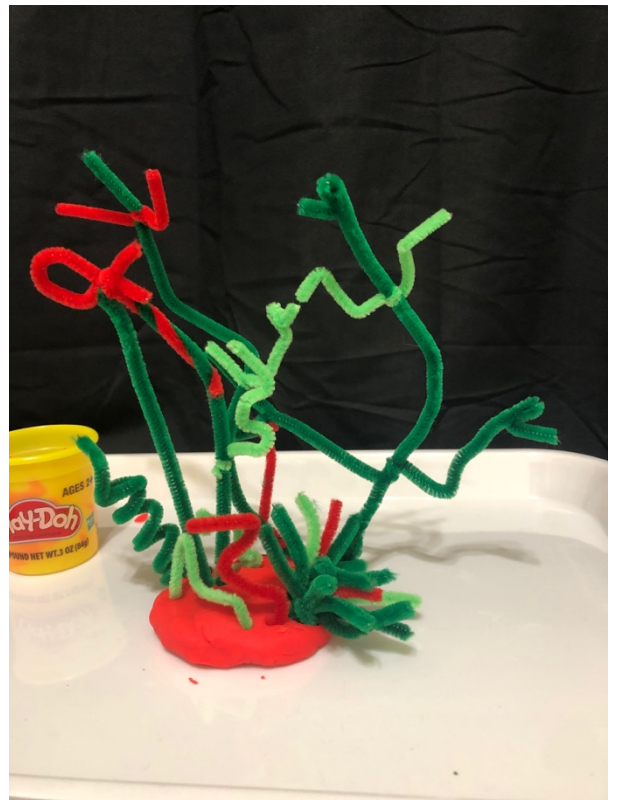

Step One:

Use the pipe cleaners to create different shapes of coral. You can look up images of coral reefs to get inspiration!

Step Two:

Put your Play-Doh on a hard surface and begin to stick your coral into the clay so it stands up! Keep building until you are happy with your reef!

Voilà!

What types of animals live in coral reefs?

Post your creation to Instagram with #SpellsOfTheSea and we will feature your creations on our Instagram!
